Dear Student,

We are scholars from the Geography and Sociology Faculties of Adam Mickiewicz University in Poznań. The purpose of this survey research is to collect information about the use of location-based services in mobile devices in everyday life: their role, commonness of use, and your attitude towards them. It is an element of a larger project examining relations between the material and the virtual world. The survey is voluntary and anonymous, and the completion of the questionnaire will not take you more than 10 minutes.

At the end of the questionnaire you will be able to volunteer for participation in the next part of the research - a group interview.

Thank you in advance for your help with the research,

Michał Rzeszewski and Piotr Luczys
contact: mrz@amu.edu.pl

1. What brand and model of cellphone do you use?

2. What are its advantages, and what are its drawbacks? List some of them in the table below.

<table>
<thead>
<tr>
<th>ADVANTAGES</th>
<th>DRAWBACKS</th>
</tr>
</thead>
<tbody>
<tr>
<td>interesting solutions making life easier</td>
<td>errors, deficiencies, imperfections, bizarre features</td>
</tr>
</tbody>
</table>
3. What are people in the photos doing? How would you describe those activities?
4. How do you understand the notion 'location based services' (or 'geolocation')? Describe it in your own words:

........................................................................................................................................
........................................................................................................................................
........................................................................................................................................
........................................................................................................................................

5. What is the use, in your opinion, of user location in mobile devices applications?

........................................................................................................................................
........................................................................................................................................
........................................................................................................................................
........................................................................................................................................

6. Have you got applications installed in your phone/tablet that make use of user location?

☐ Yes
☐ No (pass on to question 9)
☐ Don't know (pass on to question 9)

7. Do you agree for those applications to use information about your location? Justify your answer..

☐ Yes (justify)
☐ No (justify and pass on to question 9)

........................................................................................................................................
........................................................................................................................................
........................................................................................................................................

8. What do you use user location in your phone for? You can choose several answers:

☐ Work/study
☐ Contact with family / friends
☐ Play / games
☐ Relaxation / exercise
☐ Shopping
☐ Seeking information
☐ Navigation
☐ Making notes
☐ Taking photos / filming
☐ Augmented reality
☐ Seeking new friends
☐ Other (what? .......................................................)
9. How do you understand the notion 'augmented reality' (AR)? Describe it in your own words:

........................................................................................................................................................................
........................................................................................................................................................................
........................................................................................................................................................................

10. What is the use, in your opinion, of 'augmented reality' in mobile facility applications?

........................................................................................................................................................................
........................................................................................................................................................................
........................................................................................................................................................................

11. Have you got applications installed in your phone that make use of 'augmented reality'?
   □ Yes
   □ No (pass on to question 14)
   □ Don't know (pass on to question 14)

12. Do you agree for those applications to use information about your location? Justify your answer.
   □ Yes (justify)
   □ No (justify and pass on to question 14)

13. What do you use 'augmented reality' in your phone for? You can choose several answers:
   □ Work/study
   □ Contact with family / friends
   □ Play / games
   □ Relaxation / exercise
   □ Shopping
   □ Seeking information
   □ Navigation
   □ Making notes
   □ Taking photos / filming
   □ Augmented reality
   □ Seeking new friends
   □ Other (what? .......................................................)
14. Do you know what 'geocoding' and 'geotagging' are? Can you tell the difference between those terms?

15. How do you understand the notion 'digital exclusion'? What do you associate it with?

16. Who (and why) can be 'digitally excluded' in modern times?

DEMOGRAPHICS

1. What is your gender:
   □ F
   □ M
   □ Other (please specify) ………………………………………………………………

2. Year of birth ……………………………………………………………………………

3. Place of residence:
   □ town with over 500 thous. population
   □ town with 100-500 thous. population
   □ town with 10-100 thous. population
   □ town with under 10 thous. population
   □ village

4. What is your field of study?
   ……………………………………………………………………………………………
   ……………………………………………………………………………………………

5. How many mobile devices do you use??
   □ 1-2 (e.g. smartphone and tablet)
   □ 2-5
   □ over 5

If You are interested in participating in further stages of this study, please leave us your email address (uppercase will be the best!)
